

SUMMARY

- What are the main takeaways from this topic?
- Summarise the key points in a few sentences.
- What types of questions might you be asked about this topic?
- Create sample questions to test your understanding.

INTRODUCTION

- Write a brief introduction to the topic.
- Why is this topic important?

KEY CONCEPTS

- What are the essential ideas or theories related to this topic?
- Define each key concept clearly.

IMPORTANT DETAILS

- What are the critical facts, dates, or figures you need to remember?
- Include definitions, formulas, or important events.

EXAMPLES

- What examples can illustrate these key concepts?
- Include real-world applications, historical events, or specific problems and solutions.

CENTRAL IDEA

CAUSES

- What are the root causes or origins of this topic?
- Discuss the background or historical context.

CONNECTIONS

- How do these concepts connect to each other?
- Show relationships, similarities, or differences.

EFFECTS/CONSEQUENCES

- What are the outcomes and impacts of this topic?
- Discuss short-term and long-term effects.
